INTERIOR WORKERS RECLASSIFYING

5,866 Employees Are Co-Operating With Joint Congressional Committee.

The 5,866 employees of the Department of the Interior are working enthusiastically in co-operation with the joint congressional committee on reclassification of salaries for government workers.

PARIS MAY DAY BROILS

BRING INJURIES, DEATH

PARIS, May 2.—Two hundred and fifty policemen were hurt, one sergeant, who was stabbed in the back, being in a dangerous condition, during yesterday's May day disorders, according to an announcement made by the prefecture of police at midnight. Apparently only one person was killed, a youth named Lorne, who according to reports not yet authenticated, was struck by several revolver bullets. The person who fired the shots is said to have been arrested, but his identity has not been established. One hundred and fifty persons were arrested during the demonstrations. American ambulances did efficient work in picking up the wounded. The American Red Cross attendants being cheered by the crowd. One of the incidents of the day occurred at the Invalides bridge, where an American lieutenant colonel and two junior officers were stopped by dragoons when they attempted to cross the river. After a parley the Americans were charged upon by some cavalymen and in the melee some shots were fired. During a clash between the police and a crowd in Place de la Bastille in which twenty persons were wounded, a policeman shouted to the mob: "If you want to fight, go to Versailles and fight the Germans." The mob took up the cry of "On to Versailles" and a diversion was created which averted more serious fighting. Foreigners were prominent among those engaged in the demonstrations and the police declared tonight that virtually every other leader in the crowds was either Russian, Spanish or a member of some other alien race.

MOBS KILL 3,224 IN 30 YEARS, REPORT STATES

NEW YORK, May 2.—In the last thirty years 3,224 persons have been put to death by mob violence, according to a report made public today by the National Association for the Advancement of Colored People.

For the thirty-year period from 1889 through 1918 the north has had 219 victims, the south 2,224, the west 136 and Alaska and other localities 15.

"Fifty colored women and eleven white women were lynched in fourteen states. Thirteen of the fourteen states in which women fell victims to mobs were southern states. Nebraska being the only state outside the south which lynched women. The north and west together have lynched twenty-one persons during the last five-year period, whereas during the same time 304 persons were lynched in the south."

In conclusion, the report says: "It is apparent that lynchings of negroes for other causes than the so-called 'one crime' have for the whole period been a large majority of all lynchings, and that for the past five years less than one in five of the colored victims have been accused of rape or attacks upon women."

LABOR PROTESTS DISORDER.

Paris Unions and Socialist Leaders Trying to Fix Blame.

PARIS, May 2.—Socialists and the leaders of labor unions are extremely indignant over yesterday's incidents. The General Labor Federation has issued a protest and a committee meets tonight to consider what steps will be taken as a result of the disorders. The managing committee of the socialist party and the socialist group of the chamber of deputies also will meet. The disturbances are generally deplored by public opinion. The blame is variously apportioned by the press according to the political complexion of the newspapers. Thus, the conservative organs, such as the Figaro, lay it all upon the labor people, while the newspapers of the French Clemenceau, such as L'Ouvre, are inclined to agree with the socialists that there would have been no trouble if a demonstration had been permitted in Paris, such as those held in the suburbs and in the provinces. The persons who were arrested during the disturbances will be tried by court-martial.
